

Sanele Khanyile

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm an enthusiastic software developer based in Pretoria, Arcadia, with a solid foundation in programming and a passion for learning new technologies. I hold a BSc in Applied Mathematics and Computer Science from the University of Zululand and have experience in both professional settings and private tutoring.

During a recent role as an Examination Assistant with the Department of Education, I demonstrated strong task management skills and contributed to improving workflow efficiency. In addition, I've been actively engaged in part-time tutoring for Mathematics and Science since 2021, where my adaptive teaching methods and close collaboration with students and parents have been key to enhancing student performance.

I've worked on several software development projects, including full-stack web development, mobile app development, and microservices architecture. These projects have allowed me to gain hands-on experience with a variety of technologies, including Java, Python, JavaScript, TypeScript, Spring Boot, Angular, and SQL databases. I'm proficient in tools such as IntelliJ, VS Code, Android Studio, and Postman.

Fluent in IsiZulu and with basic proficiency in English and Afrikaans, I bring a combination of technical skills, problem-solving abilities, and strong organizational skills to any team. I'm eager to continue growing in the field of software development, contributing to impactful projects while gaining further hands-on experience.
