Curriculum Vitae (CV)

What job i'm looking for? My positive points

I have been working in offices doing creditors and debtors in my early stages, but I needed to come out of the office, and landed a job at Medupi power station. I love the construction world as it has daily challenges and that excites me.

I am very goal orientated and push myself to achieve each goal I set myself to.

Whenever there is something new, I go for it. Whether it be training of any sort that can help me, or driving forklifts on site. Its all part of the construction package, being able to understand the demand on site, and being able to get it done.
