Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am young, full of energy, goal driven and enjoy challenging myself. I have a passion for learning new skills, working my absolute hardest and I take pride in any and all work that I part take in.

I have just completed a years Online Product Marketing experience in Johannesburg, where I took on my entire division(Health) and ran it. I also enjoyed success by more than doubling the monthly sales and ultimately the annual profits for the division.

I have worked for many promotional companies, from selling tickets for events to bartending and waitering, I love working with people, but am happy if it is on my own too. I also was a free-lancer at my former company where I had to display discipline, time management skills and devotion to my division to reach and improve targets.

I am a hard, diligent worker. I enjoy doing extensive research on the products I market and sell as I have to be a professional at what I do, if I want it to succeed. I don't mind the heavy work-load, and encourage it, as it will develop more important skills, and ultimately, more sales and an encouraged, driven team.
