Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a qualified and experienced candidate in environmental management including waste management, who is flexible, adaptable and able to manage multiple priorities at the same time, I can also work without any supervision because of the experience I have because in my last job I worked as an Environmental Assessment practitioner, all of this makes me believe that I would be a strong candidate to work with. I have an ability to grow with a job, handle responsibility and build positive relationships with work colleagues at all levels. My past employer was very satisfied with my work rate, and I am confident that I can bring the same level of high performance to your organization.
