Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am very skilled in math, possess excellent reasoning skills, give 100% attention to detail. I have extensive experience in the role of executive assistant and administrative assistant as detailed in my resume attached. I am looking for a position such as the one listed here because it involves assisting and transporting, which truly is my forte. Out of all positions I have held over the years, my role as debriefing and scanning to the logistic and loading master operations at Imperial was truly my favourite and I had this role for a period of four years. I only moved on from the position because I was offered a promotion to work within the office as an office admin scanning, allocating routes for drivers. I really would love working in the transport industry again.
