Curriculum Vitae (CV)

What job i'm looking for? My positive points

The type of job that I'm looking for is a drivers job (code 10 with valid PDP) because I believe strongly in doing something that one loves and my passion for being able to operate a moving vehicle started from a very young age and since then I have fell in love with it as a result being a good responsible driver that I am today.

I like to be given a responsibility because it simply shows trust and faith in me and me loving that feeling I always ensure that I perform the given task to the best of my ability so that I can be trusted even more.

One of my other strongest points again is punctuality and having grown up to practicing being taught how to respect time has made me make life easier for myself in terms of getting things done.

I also possess very good communications skills and thanks to that aspect, I find it very easy to be part of a team the very same way that I am able to tackle any challenge that is assigned to me individually.

Words can honor me but what I am asking for is for an opportunity to to practice what I have just preached and let my actions really define me.
