

# Juliet Makhura

Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I have the plant operator certificate and I have worked in the laboratory for more than five years operating instruments like: XRF, ICP-OES, ICP-MS, AAS, Auto Titrator and worked in wet chemistry preparing and fusing samples to be analysed. I also worked in QC lab preparing calibration standards for all the instruments and verify them against the old before using them. I also took care of the laboratory log books and do calibration standards stock taking.

I am a diligent and responsible lady with a sense of integrity. I interact well with others in a group and always determined to finish all tasks assigned to me on time. I also have good communication and people skills, very dedicated, motivated and I believe that I have a lot of potential.

I strongly believe that I will be a great asset to your organisation and bring about a positive contribution as well as acquiring some experience through the work I will be doing.

Should you require any more information, please feel free to contact me at 063 738 7744.
