Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I've been honing my data analysis skills for a few years now and, first and foremost, I'm looking for a position where I can continue to exercise those skills. Another thing that's important to me is that the position allows me to not only play with data, but also present my findings and suggestions directly to clients. That would be really refreshing! I'm always very motivated by being able to see the impact of my work on other people. And, I'm definitely looking for a position where I can grow—professional development is something that's really important to me since I hope to take on managerial responsibilities in the future. To sum it up, I'd love a position where I can use my skills to make an impact that I can see with my own eyes. Of course, the position is only part of the equation. Being at a company where I can grow and work toward something I care about matters, too. DNF's goal of being the intersection between data and education inspires me, and I'm really excited about this opportunity
