Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am writing to express my interest in working for your well-established company as a [position advertised]. After completing my course [Information Technology (Systems Development)] at red and yellow, and gaining industry experience through as a Junior/Intern front end and Quality assurance at Ogilvy and Mather (Cape Town), I feel it is time to gain more industry experience, as a junior developer.

My studies centered on web design, database management, coding and of the programming software used to create websites and mailers. I am proficient in HTML and I have a basic knowledge of several scripting languages, structured programming languages and knowledge of I also have knowledge of system development, MySQL, HTML5, CSS, PHP and little of JavaScript. I have experience implementing links, tools and similar features into web designs and I can prepare documents and keep accurate daily reports. I am self-motivated, I use good judgment and I can manage my time wisely to meet deadlines. I have excellent verbal and written skills that make it easy to understand information and to articulate my ideas clearly, so others can understand. I am very flexible with the ability to work different shifts and weekends when necessary and I can adapt to different types of work environments easily. I have a pleasant and friendly personality with the ability to work as a team or independently and am working myself up the ranks by learning in-depth on my
