

Ofentse Reuben Moyane

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am glad to find such opportunity as it will allow me to pursue my career further in a very challenging and rewarding work environment. I have worked as a Furnace Tapper at Glencore Rustenburg Plant during initial phase of my career. After working there for 3 years, I joint a company called Off-Set construction where I was working a General worker until my contract got terminated. Working for such a long period, I have acquired extensive knowledge and experience in setting up, operating, maintaining and repairing complex machines such as LHD because I also worked as a Fitter Assistant at Aquarius under the company called Mag-con. Apart from technical expertise, I have gained knowledge about sufficient methods of production and environmental compliance policies which need to be followed to minimize environmental pollution and which also need to be adhered to mitigate the risks and hazards within a working environment. I always maintain a punctual schedule and professional behavior at workplace without hindering communication with my fellow workers. I have enrolled for Diploma in Safety Management Course with University of South Africa that I have not yet completed due to financial obstacles.

Preferred occupation	Jobs for students Student jobs
Preferred work location	Mogwase North West
