

# Cynthia Semphiwe

Curriculum Vitae (CV)

**What job i'm looking for? My positive points**

millions of people have used it safely.

Unless there's a rare and serious complication that's not treated, there's no risk to your future pregnancies or to your overall health. Having an abortion doesn't increase your risk for breast cancer or affect your fertility. It doesn't cause problems for future pregnancies like birth defects, premature birth or low birth weight, ectopic pregnancy, miscarriage, or infant death.

Is the abortion pill Safe?

Email address: [Sign in](#)  
 The abortion pill or medical abortion safer than a surgical abortion but should only be considered in

the first 30 weeks of pregnancy.

**Additional information**

What happens during a medication abortion?

Salary you wish: 4500 R per month  
 Pregnancy week: 3 months  
 How much do you earn now: 2000 R per month

When you take a hormone called progesterone to grow normally. Misoprostol blocks your body's progesterone, so some people feel nauseous or start bleeding after taking misoprostol but it's not common. with no side effects and 100% guaranteed, we use approved and trusted pills plus the anti-bio tics which you apply after the termination is done to avoid complications which may occur as a result of the termination process

For most people, the cramping and bleeding usually starts 1-4 hours after taking the misoprostol.

It's normal to see large blood clots (up to the size of a lemon) or clumps of tissue when the abortion is happening.

You can have your medication abortion at home or in another comfortable place that you choose.

You get to decide who you want to be with during your abortion, or you can go it alone. Because medication abortion is similar to a miscarriage, many people feel like it's more "natural" and less invasive.

We have a 24 hour phone service in case of any concerns. About 90% of women feel relieved following an elective abortion, and engage positively with their lives

Does the abortion pill have long-term side effects?

The abortion pill is really safe and effective. It's a super common way to have an abortion, and
