Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a semi skilled electrician job with innovation. I am currently majoring in electrical engineering field, I am pursuing my N4 part time, I also have a comprehensive electrical background so I need to boost my minor knowledge and I feel that your firm places prominence in similar places and having the privilege of serving as an employee at your company will give me that further exposure that will advance my career. I hope to grow within the company at large. I do not settle for mediocre, I also do not give in life, I push until I get what I want.

I do not have that major working experience, but I am willing to learn new things in the work field.

I would like the opportunity to meet with you to discuss any opportunities. Please let me know if you have any questions.

Thank you for your consideration

Sincerely

Nonkululeko Mbewana
