Curriculum Vitae (CV)

What job i'm looking for? My positive points

As a qualified and dedicated technician in the civil engineering and building construction field. I am very interested in pursuing a career in your organization.

In 2010 I obtained my National Diploma in building and civil engineering from Tshwane South College, and furthered my studies at the University of South Africa (UNISA) in Advance Project Management course. My experiences includes working since 2008 at a government printing centre, constructing and renovating the building which included surveying. After working for a Landscaping and Construction company that was constructing an effluent plant at Aquarius mine in Rustenburg, and there after working for a roads and structural company in the Free State province (Kroonstad N1) upgrading the national route. I have attached my CV for more information about my work experiences. I quickly earned a reputation as a matured and responsible young person. I earned trust of the owner and was soon promoted to operate an International Roughness Index vehicle (IRI) which checked the elevation of the road.

I am known for my good communicational skills and planning, organizing and presentation skills. I am analytical and pays attention to details with creative, productive and problem solving abilities. Good in sharing meeting and compiling reports for any presentation. I value team work and try to motivate others to follow my example of professionalism and dedicated service

Preferred occupation	site leveller surveyor Construction jobs
