

Kamogelo Rakgwale

Curriculum Vitae (CV)

What job i'm looking for? My positive points

My goal is to become a full time Electrical Engineering Technician with the ability to analyze complex electrical engineering problems, evaluate, recommend alternatives and communicate recommendations effectively within your company. I would furthermore like to register with Engineering Council of South Africa (ECSA) as an Electrical Technologist.

I am a hardworking and dedicated individual who is open to new ideas and does not mind working under pressure to produce highly acceptable results. The self-regulatory skills that I possess are self-discipline, time management and ability to deal with stressful situations, plan and prioritize workload. I am willing to relocate, travel, work long hours and learn everything that will result positively in my life.

I have completed Bachelor of Technology-BTech in Electrical Engineering at Vaal University of Technology. Have a strong theoretical background in Electrical and Electronics Engineering. Have gained practical experience during academic year 2016 – 2017 with exposure to motor controls, electrical wiring, Maintenance, fault findings, connecting the distribution board, laying underground cables, Armouring and Electronics following existing methodology set by qualified technician. This position has allowed me to apply my knowledge in a hands-on setting.
