What job i'm looking for? My positive points

I want to relocate from Witbank. I am intelligent , a perfectionist and have been in the mining and industrial industry since 1978.I make a success of anything I put my mind to.I can read people as I have been a very successful representative for years.I can do anything and everything on a mine except mining self.My previous occupations took me underground and I do not have a problem going underground.I m computer literate , can do budgets , cost analysis, know more about mining than most people do.I am practical and by no means a drama queen.I believe in "Identify and rectify" I do not believe in postponing the inevitable but take it head on and correct it by any means. I am a very versatile employee and can only add to the success of your company.....
