Curriculum Vitae (CV)

What job i'm looking for? My positive points

Hello

OK I have N3 in Electrical Engineering but I don't have any experience, so I would love to do any that goes with that. My priority search is doing an apprenticeship so that I can gain experience and be a trade tested engineer, but since I don't have that experience I'm willing to take a general work then I grow from there.

My positive points, I'm committed person to my work, always willing to learn. Always willing to work with a team and even can work alone. I'm an ambitious person who likes to be always be on top of the game. I have a skill to follow verbal and written instruction. I am not afraid of heights and hazardous places as am going to wear my protective clothes. I want to make success of my life and that is going to happen by growing from general to my dream career that is Engineer. I thank you for your time.

Preferred occupation	Engineers Engineering jobs
	Generals General jobs
