Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm a young matric graduate who's currently unemployed. I am a hardworking and steadfast man looking for a job. I believe I will be a valuable asset to my employer because I am an inquisitive fast learner and regard myself as innovative. I usually take up learnerships around the town hoping to learn something new and valuable. I have been called multiple times to offer mathematical and life sciences tutoring to learners from my local highschool when need be. I just haven't gotten a job yet but I'm very hopeful something will turn out in the near future.
