building a computer from scratch on my own, and developed couple skills. when i was still a student
 Email address
 at Boston city campus and business college on workshops, we would sometimes be asked to

Additional information

Salary you wish R5000 R per month
 How much do you earn now 0183 R per month
 I have developed these skills on my own whereby my computer was unable to switch on, since I did
 not really have enough knowledge i researched online for better information since they told us to
 try to work on own first.

When I was working on my own I have discovered few problem solving skills since they have only
 said we shouldn't ask for help first, but never mention internet I researched online to try figuring
 out the basics that can cause a computer not to power up

My main goals is to work for an organisation which provides me the opportunities to improve my
 skills and knowledge to grow along the organisation objectives.

I believe I'm a perfect candidate for this job role because I have enough core skills that it needs
 which are listed below

Qualification an core skills

. Comptia A+
