What job i'm looking for? My positive points

I'm seeking for any general work as i dont have any qualifications now but i passed my matric good and unfortunetly i didn't get a chance to go to university personally because i got nsfas buasary that payed late and i got delayed so i didn't succeed ,so i was forced to do long distance learning at Unisa where im currently studying.Things aren't going well for me now because this long distance learning is really confusing especially for us undergraduate students as it requires us to have laptops which we can't even afford so i decided to look for a job so i can be able to save some money for myself so i can go back to university.PLEASE i really need job because even at home no one is working currenctly.
