What job i'm looking for? My positive points

I am looking for a security jobs, under this field I can pretty much do anything given the opportunity. I am a real definition of a strong black women, went through hardship my whole life. At this point in life I don't see challenges as impediments to my success but I take them as a learning curve and that's how I grow myself as a person. I am very well-spoken and outgoing person, engaging people would be my secondary profession. I should get this opportunity because I know my job and I don't trivialize my passion, I took security classes and practical activities because it's what I always urged to aspire.
