Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am looking for a job that is going to challenge me as a person, something that will allow me to reach my full potential. I am someone who likes to explore different aspects of life, as well as compete with myself to know what I can handle, what I am good at and still try to have fun at the same time. Any job would do at this point, as it's mainly about me creating the perfect CV for the future, as well as have experience in different areas and also make money on the side.

Unfortunately, due to life's circumstances, I wasn't able to finish my degree but I am working towards finishing it. Other than that, I am a fast learner and I work well under pressure and know how to adapt quickly to changes.
