Curriculum Vitae (CV)

What job i'm looking for? My positive points

Looking for jobs are so hard so I would be grateful for anything.

I love making food I did take consumer studies in school and I absolutely loved it.

I like to experiment with food, lots of people say my food tastes good but there is always room for improvement.

The best part for me is to watch the people's faces when they take that first bite of food

That first bite of food needs to be just as good as the last one.

When people go on holiday they'll want food that they can't make at home

They want to try new things and that what makes it special.

The highlight of their holiday will be that they had the most amazing experience at that restaurant or place where they had food.

I learned to make food by one special lady and it's my mom

I started making food when I was 10 years old and I was always the one that tasted the food before anyone else did just to make sure it didn't need anything.

One day my dream is to open up a bed and breakfast. And to make sure people had a place to stay where they feel comfortable and at home.
